

Hello Dear Sponsors,

I send you greetings from Bolivia through our Lord Jesus Christ, St Thomas' Youth. Get many greetings.

Many thanks for the letters you have sent to me. In the place where I live it is always very cold but sometimes the weather is changeable. The weather is so undecided, so sometimes it is cold and sometimes it is very hot. At high school I am much better than before because my grades improved from 70 and higher than the grades of the first bimester. That makes me feel so glad that I can get good grades.

In my family we are all in good health. How are you and your family doing? Is it easy to speak your language? It is hard to me.

At church, I am still learning the Word of God and solving my questions that there are on the way of God. Many of His Words they teach me are understood clearly and that gives me lots of knowledge in order to continue on the way of God and overcome the obstacles there are on my way of faith.

I say goodbye with much affection and love,

Israel Condori.

I ask you to pray for my family, my siblings, my father, my mother, and for the people who are poor, amen.

In drawing: Hawaiian Pizza.

Mi dibujo. My drawing.
